THAT'S CRAZY!

# THE DOGGIES ARE YOGIS

One of the most popular yoga positions for beginners is "downward-facing dog" — but this is ridiculous! Absolutely no animals were harmed (or even stressed out) in the making of the new Yoga Dogs 2010 calendar. Texas-based yoga- and dog-loving couple Alejandra and Dan Borris used careful posing and Photoshop magic to create yoga poses for every month of the year — plus many more at [yogadogz.com](http://yogadogz.com). But is it karma — or dogma?

## THIS LITTLE GIRL HAS PLENTY OF HEART

Louisa McGregor-Smith has a heart of gold and some new friends of tin. The 2-year-old, who is healthy after a heart transplant, dressed as Dorothy this Halloween to give new hearts to 33 Tin Men in London. She's helping to raise awareness for organ donation, and if there's one thing this brave babe's got, it's courage!

SO CUTE!

## ARE HEDGEHOGS THE NEW HOT PET?

They don't look very cuddly, but African pygmy hedgehogs are the newest craze in mini-pets. Usually weighing about a pound, the little guys are small enough to fit in your hand, and eat cat food and chicken. Having been bred in captivity, they love being handled by humans. They're also smaller than their wild cousins. The prickly pygmies can go for as much as \$350 apiece.
